Report on Belize

Belize is ranked at 52nd position on the 2013 Financial Secrecy Index. This ranking is based on a combination of its secrecy score and a scale weighting based on its share of the global market for offshore financial services.

Belize has been assessed with 80 secrecy points out of a potential 100, which places it towards the top end of the secrecy scale (see chart 1).

Belize accounts for less than 1 per cent of the global market for offshore financial services, making it a tiny player compared with other secrecy jurisdictions (see chart 2).

Next steps for Belize

Belize’s 80 per cent secrecy score shows that it must still make major progress in offering satisfactory financial transparency. If it wishes to play a full part in the modern financial community and to impede and deter illicit financial flows, including flows originating from tax evasion, aggressive tax avoidance practices, corrupt practices and criminal activities, it should take action on the points noted where it falls short of acceptable international standards. See below for details of Belize’s shortcomings on transparency. For an overview of how each of these shortcomings can be fixed see this link http://www.financialsecrecyindex.com/kfsi.
Secrecy Scores

The secrecy score of 80 per cent for Belize has been computed by assessing the jurisdiction’s performance on the 15 Key Financial Secrecy Indicators, listed below.

The numbers on the horizontal axis of the bar chart on the left refer to the Key Financial Secrecy Indicators (KFSIs). The presence of a blue bar indicates a positive answer, as does blue text in the KFSI list below. The presence of a red bar indicates a negative answer as does red text in the KFSI list. Where the jurisdiction’s performance partly, but not fully complies with a Key Financial Secrecy Indicator, the text is coloured violet in the list below (combination of red and blue).

This paper draws on key data collected on Belize. Our data sources include regulatory reports, legislation, regulation and news available at 31.12.2012\(^2\). The full data set is available here\(^2\). Our assessment is based on the 15 Key Financial Secrecy Indicators (KFSIs, below), reflecting the legal and financial arrangements of Belize. Details of these indicators are noted in the following table and all background data can be found on the Financial Secrecy Index website\(^3\).

The Key Financial Secrecy Indicators and the performance of Belize are:
