Bermuda - Secrecy Score

RANKING BASED ON A COMBINATION OF ITS SECRECY SCORE AND SCALE WEIGHTING

Notes and Sources

The ranking is based on a combination of its secrecy score and scale weighting (click here to see our full methodology).

The secrecy score of 66 per cent for Bermuda has been computed by assessing its performance on 15 Key Financial Secrecy Indicators (KFSI), listed on the right. Each KFSI is explained in more detail, here.

Green indicates full compliance on the relevant indicator, meaning least secrecy; red indicates non-compliance (most secrecy); and yellow indicates partial compliance.

This paper draws on data sources including regulatory reports, legislation, regulation and news available as of 31.12.2014 (with the exception of KFSI 13 for which the cut-off date is 31.05.2015).
